**WALK WITH US:** To walk with us please fill your name in below and hand out or email to family and friends to raise money!

The Joshi Project is working toward opening 24/7 walk-in mental health centres – “Joshi Hubs” – in Glasgow and Inverness.

All Joshi Hubs will be operated under the Trieste Model, a system based on **individual choice, freedom, compassion, personal aspirations, dignity, human rights** and **community** as the route to **recovery**.

It’s time we all came together to solve this crisis. The Trieste Model is supported by the World Health Organization and is regarded as the most successful model for recovery from mental illness anywhere in the world.
